Manhole Fr & Cov Ductile Iron

The Webforge range of Ductile Iron has the following features:

- Lower weight than Grey Cast Iron means safer handling
- High tensile strength reduces cracking
- Conforms to AS3996
- Gas and Water tight
- Locking with opening only via a lifting key.

A unique feature of this range is the ability to raise the frame height once installed. A simple ñsnapringò height adjustment can be added before the surrounding surface is raised, saving the time and work of digging out the frame and re-installing.

Item Code	Description	Diameter (mm)	Length (m)	Weight (kg)	Unit Price (NZD)
Ductile Iron Frame & Covers

Plastic Surface Boxes

Humes offers a range of flush mounting, high density polyethylene (HDPE) surface boxes are designed for covering and protecting below ground services, in light load traffic areas such as grass berms and footpaths. The light weight and robust design allows for easy installation and handling. The removable lids are secured with galvanized chain and stainless steel fastenings and have a full clear opening, which allows easy access for servicing and control. Aluminium pins are incorporated into the lid to assist in locating obscured boxes using metal detection equipment.
