Plastic Surface Boxes

Humes offers a range of flush mounting, high density polyethylene (HDPE) surface boxes are designed for covering and protecting below ground services, in light load traffic areas such as grass berms and footpaths. The light weight and robust design allows for easy installation and handling. The removable lids are secured with galvanized chain and stainless steel fastenings and have a full clear opening, which allows easy access for servicing and control. Aluminum pins are incorporated into the lid to assist in locating obscured boxes using metal detection equipment.
