Electrofusion Fittings

Humes distribute the Friatec range of Electrofusion fittings, comprising of Frialen (SDR11-17 with a PN rating of 16 bar) and FriaFit (SDR 17-33 with a PN rating of 10 bar). Couplers, elbows, tees, branch saddles and reducers are ex stock up to and including 450mm with larger sizes available on request. Humes also rent Friatec Electrofusion machines and scrappers for pipe diameters ranging from 63 – 750mm.

J-Pipe PE Pipe & Fittings

J-Pipe black and white sewer drainage solution is the latest combination of material and pipeline design technology. The J-Pipe solution is suitable for new subdivision developments as well as the traditional and renovation sewer methods. The black external layer provides high ultraviolet (UV) resistance. The body of the pipe is un-pigmented HDPE which is non-light scattering, therefore providing good reflection properties and visibility during CCTV inspections.
