

AVK Resilient Seat Gate Valves

AVK Resilient Seated Gate valves are designed with a wedge fully vulcanized with rubber – internally and externally. With this design, no unprotected ductile iron parts are exposed to the medium and excellent rubber vulcanization prevents creeping corrosion underneath the rubber

Item Code	Description	Diameter (mm)	Length (m)	Weight (kg)	Unit Price (NZD)

All prices are ex yard. Freight to site is extra.

All sizes are nominal. For a more accurate description, please contact your local Sales Centre.

All prices are exclusive of GST.

AVK Large Diam. Gate Valves

The Large Diameter Series 55 AVK Resilient Seated Gate valve is designed for buried or above ground use. The range incorporates DN 450, 500 and 600 for PN 10 or PN 16 applications. By virtue of innovative design the valve only requires 50% of the torque that would be needed to operate a metal faced valve. The result of torque reduction in the valve is a cost saving on actuation.

Item Code	Description	Diameter (mm)	Length (m)	Weight (kg)	Unit Price (NZD)
48871	BYPASS KIT FOR 450 VALVE			30.000	\$2,753.37

Water Meters

Humes Pipeline Systems distributes a range of bulk and domestic water meters, from the Meinecke range of Woltman Helical rotary vane design. They have superior starting and low flow sensitivity for leak detection and revenue recording while also providing the best normal and high flow performance with lower pressure loss.

Item Code	Description	Diameter (mm)	Length (m)	Weight (kg)	Unit Price (NZD)
