Dear Neil

Re: Telecom Network Specified Product (TNSP) List

With reference to TNSP application Number 011208, I am pleased to advise that your Humes Modular Access Chambers have been approved for use in the Chorus Network and entered onto the TNSP list (TNSP 11.9).

You are reminded of your company's responsibility to ensure the product continues to meet the manufacturing and design specifications.

Chorus requires you to advise this office in writing of any proposed changes to the product or your quality system to enable Chorus to consider any impact to its Network. Chorus reserves the right to remove your product from the TNSP list if it is deemed the product is unsuitable for use by our contractors in the Chorus Network.

If you have any queries please don't hesitate to contact me.

Yours faithfully

Ian McCulloch
Implementation Specialist
