13 January 2026

Dear Amanda

This letter is to reconfirm the Chorus Network Specified Product (CNSP) approval for the Humes Modular Access Chambers for use in the Chorus network.

This product is included on the CNSP list which is published on the Chorus Service Company Portal website.

It is listed under section 11– Manhole and Joint Chambers and Covers, sub section 11.9 Modular Access Chambers.

You are reminded of your company's responsibility to ensure the product continues to meet the manufacturing and design specifications as supplied to Chorus.

Chorus requires you to advise this office in writing of any proposed changes to the product or your production or quality systems, to enable Chorus to consider any impact to its network.

Chorus reserves the right to remove the Humes Modular Access Chambers from the CNSP list if it is deemed the product is no longer suitable for use by our contractors in the Chorus network.

If you have any queries in relation to this approval, please contact me.

Aaron Richardson
Manager Physical Network Engineering
